

Zionsville Student Rights Union

Office of the Chairman

Order of Appointment

April 8, 2009

Regarding the appointment of Erica K. Park:

Compelling information has been brought to the Union's attention regarding the effects of school start time on student academic performance, and student health—both physical and psychological. Erica Park, senior, has done extensive research on the subject. She has concluded that starting school later in the morning for teenagers, and in exchange earlier for elementary students, is beneficial to all parties involved. She also provides significant evidence suggesting that such a "start time switch" could save money for the Corporation. I have read her material and am satisfied that her conclusions are valid and well supported by appropriate evidence. This Office has ordered the adoption of her proposals as official Union policy (Exec. Act. #09-004).

In honor of Ms. Park's exceptional service to the ZSRU in this matter, and to formalize her continued participation in the initiative at hand, this Office deems it prudent to appropriate her a position of esteem within the organization.

Pursuant to the above, I hereby appoint Erica K. Park to the position of *Chief of Research* for the *Sleep to Succeed Project*, and grant her the status of Special Officer of the Union.

By the powers vested in this Office by the Bylaws,

It is so ordered.

Steven M. Ross
Chairman of the Board
